CEREAL BOX PICTURE FRAMES

Cereal box picture frames are a great activity for children to do. They don't require any glass or dangerous materials! They are simple to make and fun to decorate!

HOW TO MAKE CEREAL BOX PICTURE FRAMES:

SUPPLIES - Cereal box, scissors, paint, picture, wrapping paper, greeting cards and magazines, Tape, Glue Dots, Glue, Glitter glue

1. Empty out a box of cereal by removing the bag.
2. Paint only the outside of the box with your choice of color.
3. Pick out a picture to put in your frame. Preferably a 4x6 or 5x7
4. Use a pencil to trace over the picture when you lay it on the front of the box.
5. Remove the picture and have an adult use a bladed knife to cut along the inside of the traced lines.
6. Decorate the box with papers using glue dots. Then use glitter glue, markers, stickers, jewelry, etc.
7. Open the top of the box and place the picture inside. Use glue dots or tape to secure the pictures in the opening.
8. Tape the top of the box shut and you have a new picture frame!
